

A Sprinkle of Christmas Cheer

Pictons has this week moved in to state of the art Witan Studios, in Witan Gate West, Central Milton Keynes, which boasts an on-site cafe, designer desks and chairs, secure bike storage and a central location.

Pictons' Managing Partner, Sukh Saini, said: "One of our areas of expertise is employment law and we know that happy workers are much more productive.

"In fact, research has shown that employees who are happy at work are 12 per cent more productive. As a leading regional law firm, we believe in giving our people the best working environment."

The new offices also provide a pleasant environment for visitors, clients and contacts.

Pictons' employees completed the office relocation on Monday, December 18.

Heather Manning, Community Manager at Witan Studios says, "We're bringing a vibrant new working environment to the heart of Milton Keynes. Providing unique spaces to work, meet and eat - and we are delighted that Pictons are joining us! They will be a great addition to our dynamic business community, and we can't wait for them to get settled in and make the brand new studio space, their own."

Sukh added: "This office move is a testament to our commitment and continued growth in Milton Keynes and with such pleasant surroundings I'm sure that our Milton Keynes team will continue to thrive."
